DETAILED ACTION

- I. Rejection of claim 7 under 35 USC 112, 1st paragraph will not be maintained. Applicant amended claim 7 to omit the language "curative".
- II. Rejection of claims 1,2,4,7 under 35 USC 102(b) as being anticipated by Basak will not be maintained. Applicant provided English Translation of the Foreign Priority document, which disqualifies Basak's reference of record.
- III. Rejection of claims 1,2,4,7,8 under 35 USC 102(b) as being anticipated by Greene will not be maintained. Applicant provided English Translation of the Foreign Priority document, which disqualifies Greene's reference of record.
- IV. Rejection of claims 1,2,4,7 under 35 USC 102(b) as being anticipated by Ilan will not be maintained. Applicant is correct in that a carrot cell suspension is not a plant.
- V. Applicant's arguments filed 12/23/04, with respect to the rejection(s) of claim(s) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Objection and Rejection below.

Claim Objection under 37 CFR 1.75(c)

Claims 7,15 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 7 and 15 are composition claims depending from a method claim. It is improper for a composition claim to depend from a method claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 is unclear to the Examiner. What are the components of the extract, juice, wine, press cake according to claim 6? Is the compound of instant formula I the only component of the composition being claimed in claim 6?

Claims 3,9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 10-14 are allowable. The prior art does not teach or suggest the invention comprising the flavonoids of claim 4 or grapevine plants. The prior art does not teach or suggest the instant method of claim 10 comprising treating instant plants with the instant compounds of formula I.
